

AMENDMENTS TO THE CLAIMS

1 – 32. (Canceled)

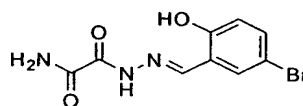

33 (Currently amended). A compound selected from the group consisting of:

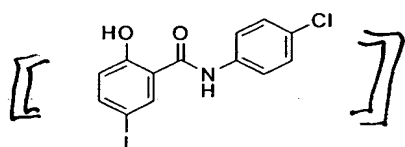

20

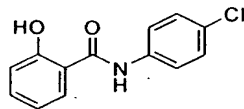

21

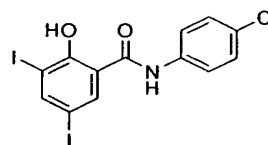

22

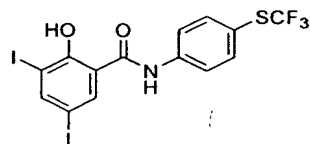

23

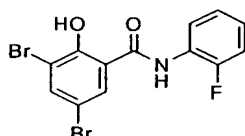

24

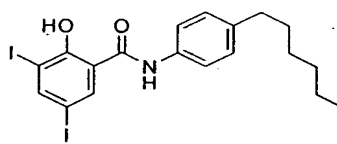

25

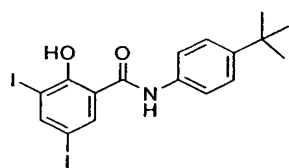

26

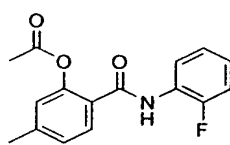

27

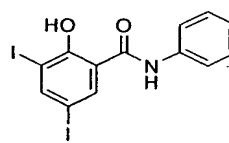

28

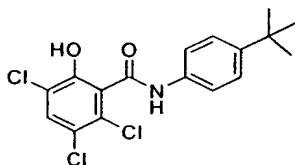

29

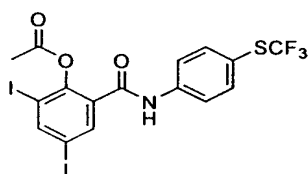

30

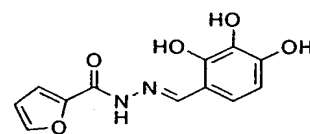

31

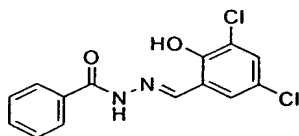

32

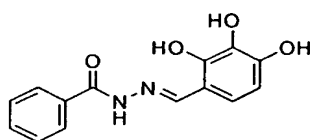

33

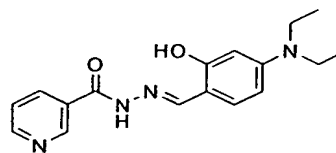

34

35

36

37

34 (Previously Presented) A compound according to claim 34 which is of formula 22.

35 (Previously Presented) A compound according to claim 34 which is of formula 25.

36 (Previously Presented) A compound according to claim 34 which is of formula 28.

37 (Previously Presented) A compound according to claim 34 which is of formula 30.

38 (Previously Presented) A compound according to claim 34 which is of formula 31.

39 (Currently Amended). A method of decreasing virulence of Gram-negative bacterial having a type II III secretion (TTS) system comprising exposing said bacteria to a compound of claim 33.

40 (Currently Amended). A method of decreasing virulence of Gram-negative bacterial having a type II III secretion (TTS) system according to claim 39, wherein said compound is of formula 22.

41 (Currently Amended). A method of decreasing virulence of Gram-negative bacterial having a type II III secretion (TTS) system according to claim 39, wherein said compound is one in which the moiety directly bonded to the carboxyl group is a

hydroxyl-substituted benzyl group and the moiety directly bonded to the N is a substituted or unsubstituted benzyl group.

42 (Currently Amended). A method of decreasing virulence of Gram-negative bacterial having a type II III secretion (TTS) system according to claim 41, wherein said compound is of formula 25.

43 (Currently Amended) A method of decreasing virulence of Gram-negative bacterial having a type II III secretion (TTS) system according to claim 41, wherein said compound is of formula 28.

44 (Currently Amended) A method of decreasing virulence of Gram-negative bacterial having a type II III secretion (TTS) system according to claim 41, wherein said compound is of formula 30.

45 (Currently Amended). A method of decreasing virulence of Gram-negative bacterial having a type II III secretion (TTS) system according to claim 41, wherein said compound is of formula 33.
